

These files are being provided pursuant to the requirements of the Health Plan Transparency in Coverage Rule, and the data herein is intended solely for that purpose. UHC disclaims the fitness of the data herein for any other purpose, including use in any third-party database or product. Any such use and any liability attached thereto is at the risk of such third party.

Rates represented in Machine Readable Files do not guarantee the items or services will be covered under your benefit plan. Estimates for services should be obtained from the website listed on your Health Insurance ID card.

Explanation of Rates

- Time and Minute based rates (EX: home health, private duty nursing, anesthesia, and ambulance) will be loaded with a base rate of 1 unit, which is generally equivalent to 15 minutes, and the dollar amount associated to that unit. Dollar amounts may vary from the base rate for additional units.
- Rates may be impacted by modifiers that are not included in this file.
- Diagnosis Related Grouping (DRG)- Rates not reflected as per diem or percentage of charge should be considered a case rate.
- Published rates are based on the performance of a single procedure. Reductions may occur when multiple procedures are performed in the same operative session.
- MAPFRE Health rates only apply to members that reside in Puerto Rico and/or the Virgin Islands on plans that were approved for usage.
- Wrap Networks may be utilized by plans when subscribers are receiving care in certain circumstances (e.g. urgent or emergent, out of area services, etc.) as set forth in the plan. Therefore, those rates only apply in limited circumstances and as such are not included in the in-network rate files.
- Complex Medical Care rates only apply to those services as purchased by the plan.
